Expected May 2027

City University of Seattle — Seattle, WA

Bachelor of Arts in Graphic Design

May 2021

Seattle University — Seattle, WA

PROJECTS & EXPERIENCE

Job Portal User Interface

2026

- Designed and developed a responsive, accessible frontend dashboard for a job-matching application using React and Tailwind CSS.
- Implemented complex state management with Redux to handle real-time filtering and sorting of job listings.
- Achieved a 98% Lighthouse accessibility score by adhering to WCAG 2.1 guidelines.

Interactive System Dashboard

2025

- Created interactive charts and graphs using D3.js to display system metrics and user analytics.
- Focused on optimal user experience and fast render times, ensuring 60fps performance on mobile browsers.

UI/UX Designer

2021 - 2024

Creative Solutions Agency — Seattle, WA

- Led the visual redesign of 5+ client web platforms, increasing user engagement by an average of 35%.
- Translated client requirements into high-fidelity Figma prototypes before handing off to development teams.
